

DRAWING AMENDMENTS

Cancel FIGURE 2 added by the Amendment filed on August 8,  
2007.

REMARKS

In the Amendment filed on August 8, 2007, Applicant amended the specification and drawings of this patent application to illustrate and provide express support for Claims 4, 7, and 8, in response to a drawing objection raised in the Official Action dated May 4, 2007.

Upon further consideration, Applicant has elected to cancel Claims 4, 7, and 8 which are not essential to the invention disclosed and claimed in the present patent application. On the contrary, these claims recite an initial step of rolling edges thinner before the final bending process of the present invention is performed, which is just one of many applications of the method and apparatus disclosed in the present application.

In view of the cancellation of Claims 4, 7 and 8, Applicant has cancelled both the new drawing FIGURE 2 added by the Amendment filed on August 8, 2007, and has deleted the revisions made to the specification by the Amendment filed on August 8, 2007 describing the new FIGURE 2 drawing.

Respectfully submitted,

Mark P. Stone
